Acknowledgements

- A small vote of thanks for all who have helped me in this journey of App Development –my parents, Mentors,Mr. Ken, Group Members, Friends, and Stackoverflow.

About Me..

- My name is Priyansh Patel,
- I am 16 years old and am a student of class 11.

About My Internship Journey

- My Internship Experience with Clevered.

The Journey so far has been very enjoyable and overall it has been a great learning opportunity.

About App..

- The app will give diagnosis based on the symptoms entered by the user.
- Users can enter the select the symptoms and enter upto 5 symptoms.

How do I use the App?

UI

- Here we just need to enter the symptoms name in the 'select here' tab and then select on the prediction buttons respectively.

- Outputs will be shown in the bottom in the various tabs as shown

- Once used a user can also resest the inputs and enter symptoms again for another person.

- To exit the system click on the exit system button

Contact Person

- Please reach out to me at my email address priyansh062407@gmail.com for any questions/ concerns/ suggestions on the App.

Thank you!
